BRIEF DESCRIPTION OF PROJECT			
STATINTL			
<p>The Financial Resources Information System-Commo (FRISC), utilized by the <div></div> Programs Staff and Engineering Staff to maintain a current status and projection of the usage of all funds and PRA allocated to <div></div> FANS on a fiscal year basis. Additionally, status reports on requisitions are available which enable management and logistics personnel to provide timely support and control for all major projects.</p> <p>Data input is via a 2741 or Delta Data terminal located in Hqs. building rooms 1B04 and 1B2703 respectively. Report output is to OJCS computer center printers. Program operation and support is controlled and maintained by <div></div> using COMPOOL 19E p-space for on-line storage.</p>
